## UNIVERSAL LAPTOP/ NETBOOK POWER ADAPTERS

### Advanced Charging Benefits

#### Patented switchable voltage controlling tips for universal compatibility

DURACELL® Laptop and Netbook Adapters are built with ease of use and universal compatibility in mind. These versatile adapters work with thousands of today's popular laptop and netbook makes and models, thanks to unique patented voltage controlling tip technology.

Patented voltage controlling tips deliver the correct power every time, yet are easily switched out to power another computer. A perfect fusion of cost-effectiveness and incredible versatility!

Our exclusive switchable tips are engineered to safely deliver the correct power for each specific computer make and model.

The tips can be changed in seconds to fit a totally different laptop or netbook, making these versatile adapters an ideal solution for workgroups and households whose members use several different brands of portable computers.

Flexible multi-computer charging solutions for one sensible price — that's the advantage of DURACELL® Universal Adapters.

#### reliable power

at home, office or on the road

Today's multi-tasking computer user demands dependable power in a convenient, portable format, and that's just what DURACELL® delivers.

The economical operation, incredible versatility and advanced charging features of our compact adapters

satisfy even the most demanding users and ideally suit every high-tech computing purpose.

Mobile executives, office professionals, busy travelers, students and everyday consumers place their confidence in DURACELL® for business, recreation and countless other critical tasks. We're the brand that's "Trusted Everywhere" — add these leading-edge adapters to your product selection and put the power of DURACELL's legendary quality and performance to work for you!

Run and recharge iPads and more with ease!

#### 2.1 Amp USB charging

With the **industry's fastest 2.1 Amp USB port** built right in, our latest DURACELL® adapters provide the power needed to support **Apple iPad™, tablet computers, e-readers and multi-function smartphones**. Rapid, reliable charging is assured with DURACELL's advanced technology.

Consumers can conveniently charge a vast variety of USB enabled devices — at the same time the adapter powers their laptop!

- iPad™ and Tablets
- Cell Phones, iPhone™ and Smartphones
- iPod™ and MP3 Players
- E-Readers and Handheld Games
- Digital Cameras and Camcorders

With dependable laptop and netbook charging combined with the fast USB power that high-tech consumers demand, the DURACELL® adapters put a portable powerhouse right in the palm of your hand!

#### earth-friendly energy

... with proactive power savings built right in!

Innovative tips cut off power drain when the laptop is not in use. This allows the Energy Efficient Adapter to consume up to 90% less standby power than conventional adapters.

The **Energy Efficient Universal Laptop Adapter** makes energy savings easy and effortless. Exclusive patented power-saving tips interrupt power flow to the adapter when the laptop is idle, effectively stopping "vampire power drain" in its tracks. These switchable tips are calibrated to deliver plentiful power in an instant once the consumer begins re-using the laptop, or the laptop's battery needs to be recharged.

The adapter also features a powerful 2.1 Amp USB port to charge virtually any handheld gadget with ease.

Elegantly simple in both function and style, the **Energy Efficient Adapter** is a smart choice for any conscientious consumer.

## Product Features

### 90W Universal Laptop AC Adapters

**DRAC5101** (with 0.6 Amp USB)  
**DRAC90** (with 2.1 Amp USB)

- AC (WALL OUTLET) COMPATIBLE
  - USB CHARGE PORT (0.6 AMP / 2.1 AMP)
  - 90w** 90 WATTS MAX OUTPUT POWER
- INCLUDES:
- AC INPUT CORD
  - 10 SWITCHABLE TIPS

Reliable AC power from any wall outlet

### Energy Efficient Universal Laptop AC Adapter

**DRAC90SG**

- AC (WALL OUTLET) COMPATIBLE
  - USB CHARGE PORT (2.1 AMP)
  - 90w** 90 WATTS MAX OUTPUT POWER
  - ENERGY EFFICIENT TECHNOLOGY
- INCLUDES:
- AC INPUT CORD
  - 10 SWITCHABLE TIPS

Proactive power-saving technology

### 90W Universal Laptop AC/Auto/Air Adapter

**DRACDC5101**

- AC (WALL OUTLET) + DC (AUTO/AIRPLANE) COMPATIBLE
  - USB CHARGE PORT (0.6 AMP)
  - 90w** 90 WATTS MAX OUTPUT POWER
- INCLUDES:
- AC INPUT CORD
  - DC INPUT CORD
  - 10 SWITCHABLE TIPS

A busy traveler's best friend!

### 40W Universal Netbook AC Adapter

**DRACNB**

- AC (WALL OUTLET) COMPATIBLE
  - 40w** 40 WATTS MAX OUTPUT POWER
- INCLUDES:
- AC INPUT CORD
  - 4 SWITCHABLE TIPS

Compact take-along AC power

## Portable Power Solutions Product Family

### Universal Laptop/ Netbook Adapters

Ultra-portable DURACELL® Universal Adapters plug into both AC and DC power outlets for use at home, office, automobile — even on a plane.

Removable voltage-controlling tips allow these versatile adapters to charge thousands of different laptop and netbook makes and models, including Acer, Asus, Gateway, Dell, HP/Compaq, IBM/Lenovo, Toshiba, Sony and many others, with the simple switch of a tip. Users can also use a built-in USB port to simultaneously charge devices such as cell phones, PDAs, iPods and more while powering the computer. With unparalleled convenience and compatibility, the Duracell Universal Adapters are the ideal power solution for multi-tasking households, workgroups, or any consumer who's always on the go.

### Powerpacks/Jump Starters

Never get stuck without power again! DURACELL® stand-alone/emergency Powerpacks and jump starters are ideal companions for travel, work and recreation. The innovative Powerpacks provide backup power and operating current for many small power tools, computers, personal electronics and communications devices via an internal rechargeable battery and feature AC, DC and USB charge ports.

Both Powerpacks and Jump Starters safely restart most commonly used vehicle batteries with no external power source or second car required. Specific models also feature voice technology, air compressors, and/or built-in flashlights for safe, simple operation. Wherever your travels take you, you'll want your DURACELL® Powerpack or Jump Starter right by your side!

### Vehicle Battery Chargers

Consumers can count on DURACELL® to tackle even the toughest battery charging tasks with ease. Plug-and-play operation allows quick, easy connection to virtually any type of lead acid vehicle battery\* with no installation required; a special three-stage charging process ensures that the vehicle battery is properly charged without overcharging.

Most units are conveniently packaged in a hard plastic carry case for easy storage and portability, and all carry a full one-year warranty. High-performance DURACELL® battery chargers are the clear choice for automotive professionals and consumers alike!

### Power Inverters

Portable DURACELL® inverters keep consumers powered up for work, play, camping, travel and even household emergency backup power.

Available models provide up to 3,000 watts of take-along power – enough to supply many of today's energy-hungry entertainment and mobile office devices, power tools and household appliances. Higher wattage models can also be used as a safe, silent alternative to conventional generators. No matter what your power needs DURACELL® inverters put easy, on-demand power right at your fingertips.
